

Miscarriage and Ectopic Pregnancy

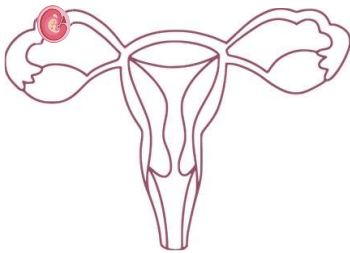

What is Miscarriage?

- Unexpected loss of a pregnancy within the first 20 weeks
- Most common type of pregnancy loss
- About 1 in 4 pregnancies end in miscarriage

Symptoms- Seek immediate Medical Care for:

- Bright red bleeding heavier than your normal period
- Clots or tissue passing from the vagina
- Cramping worse than period cramps or strong lower back pain

What is Ectopic Pregnancy?

- Pregnancy that is growing in the wrong location (not in the uterus)
- Potentially life threatening due to internal bleeding
- Abortion does not remove ectopic pregnancy

Symptoms- Seek immediate Medical Care for:

- Sharp or stabbing pain on one side of the lower abdomen, often with shoulder pain on the same side
- Intense pelvic pressure
- Dizziness or fainting
- Vaginal bleeding or spotting
